

MIPS – PROCEDURE

1. Language: MIPS
2. IDE: MARS
3. Requirement:
 - 3.1. Input and output an array with N ($0 < N < 100$) elements.
 - 3.2. Write a **procedure** to **sum** of all the **odd** elements of the above array. Please note that **odd** is the procedure called by sum.
4. Submission instructions
 - Please submit your assignment to the Moodle
 - The assignment will be compressed to a zip/rar file named MSSV.zip/rar that includes two files:
 - o MSSV.asm: Source code
 - o MSSV.docx/pdf:
 - Screenshots of the program output.
 - What percentage of the work is done?
