

LAB REGULATION

I Timetable

Week	Lab	Important activities
1	Lab 1: Review	
2		
3	Lab 2: Searching and Sorting algorithms	
4	Lab 3: Pointers	Attendance test 1
5		
6	Lab 4: Linkedlist and Stack-Queue	Project release
7		
8	Lab 5: Binary file	Attendance test 2
9	Lab 6: Recursion	Project submission
10		Final Exam

II Grading

- The laboratory part accounts for 40 points.
- Your only take-home submission is the Project. This project accounts for 10 points.
- The Final test will take place in week 10. This test accounts for 10 points.
- There will be 2 Attendance tests, which will take place in week 4 and 8. These tests take up the remaining 20 points left.

III Policy

- All assignments must be submitted via Moodle. Any other channels (email, discord, ...) are not acceptable.
- For the programming assignments:
 - Any submitted programs that fail to compile or not generate the necessary executable(s) code won't get you any credit.
 - Your program might work correctly on the given example input, but that is not meaning it performs the same on the new inputs that will be used when grading. So check your code carefully.
- Students who missed Project **OR** any Attendance test(s) **OR** Final Exam will receive a "0" (zero) for the entire laboratory part.
- Any scheduled absence(s) must be informed at least 24 hours before the lesson start.
- Any unscheduled absence(s) must be informed to the Lecturers or Academic Section at most 48 hours after the lesson start. Proof must be provided in this case.
- There will be 1-2 bonus points for your volunteering, based on the difficulty of the problem.

IV Plagiarism & Cheating

- Any Plagiarism or Cheating action will result in a "0" (zero) for the entire course. Any person or group related to the Plagiarism or Cheating process will also result in a "0" (zero) for the entire course and will be subject to appropriate referral to the Management Board for further action.
- 80% similarity from any **part** of Exam solution / Test solution / Project or Report is considered as Cheating.
- Citing any code fragment or paragraph without reference or comment is considered Plagiarism.
- Any other self-seeking action, which is opposed to the majority, without the permission of the Lecturers, will be considered Cheating.
- For suspected cases (without clearly cheated evidence), Lecturers have the right to request students to retake any tests, exams, or projects in multiple different evaluation methods to make the final decision.
